**FREE REPORT FROM MLGM's 'Sustainability Plus' SERIES:**

## **"THE 5 WEALTH KILLERS"**

### **The Program & Software**

**Growing multitudes.** People all around the world are invited to use MLGM's exclusive Asset Creation & Asset Recycling Program including the software to combat the economic headwinds that we are all facing.

What are these headwinds?...these are Your opponents! (including post COVID-19).

I played professional sports in my younger years and if I have an opponent that's trying to attack me I want to know who they are, what their strategy is, so that I can put together a plan to WIN. Life is the same, and those that win are the ones that walk around with smiles on their faces, have a happy family and happy family life with no monetary pressures closing in on them and are able to really enjoy life.

With that in mind I'd like to point out the 5 'Wealth Killers' that are set by default to take our money. Simply ignoring them or meandering along with good intentions **WILL NOT HELP YOU.**

### **Here are the 5 'Wealth Killers'...**

#### **1. TAXES**

Most people over pay their taxes and don't even know it. It's the number 1 wealth killer. We are a strong believer in only paying the 'legal' minimum and not a penny more. It's like driving down the road not knowing the speed limit and feeling nervous because you think you're going to get pulled over. You need to know the speed limit in your country (USA 55mph, UK 70mph highway). We encourage everyone to drive at these speed limits

#### **2. INFLATION**

Set by default, stealing our money. It's hard at work devaluing all currencies worldwide. Inflation affects us all because it takes more paper money to buy the things that we need and want.

Back in the 60's and 70's when I grew up each family only had ONE working parent and the other stayed at home. Why was this...because they could. Then in the 80's and 90's governments continued to print more money and run up the national debt and ONE family income wasn't enough so one became TWO. And here we are now with TWO incomes sometimes not being enough.

PROGRAM**  
**...Click Here**

If inflation runs at 11% and the banks pay 1% interest who can afford to lose 10% every year? That's exactly what's happening. Use the CECC and CEECO crypto tokens to create and protect your money, use as a safe haven from inflation.

### 3. SAVING MONEY THE WRONG WAY

We were never really told the truth about saving money. Paper money was originally created as a 'gold' substitute. People who understood this started saving gold, seeing it as a 'real' asset.

Bitcoin has now become the 'Digital Gold' and is now being seen and purchased as an asset just like gold, Bitcoin has a restricted amount in circulation thereby giving it the same favourable 'scarcity' value. Bitcoin has added value being that it also used as currency worldwide.

Note: You also have the option of creating your own gold reserve. Simply Cash-In some of your Bitcoin earned using the CECC and CEECO crypto tokens and buy some gold if you want to (opportunity to diversify a little).

### 4. BAD ADVICE

So many people get bad advice from people that know very little or nothing about finance. Just like your health, you should take personal responsibility for your financial education, your financial IQ. Don't take advice from someone who is broke.

Experts and people with phenomenal net worth's are accumulating Bitcoin (Digital Gold) **right now!**

### 5. INACTIVITY

Keeps you bound to a failing financial system that is taking your money buy default. There is nothing you can do about it unless you **take ACTION** today.

Any one of these 'wealth killers' will inflict damage on your financial wellbeing.

## It's Time For Something NEW!...

## Conclusion

Paper money has about a 150 year history and it's all bad, digital money is about 25 years old and now destined to replace paper money **forever**. Use MLGM's Sustainable crypto tokens to facilitate your changeover.

**REGRETS?...remember the guy in the USA who paid out 10,000 Bitcoin to buy a pizza back in 2010. BTC price today \$59,000 (£42,000) for ONE. I hope he enjoyed the pizza!**

So here you have a truly '**once-in-a-lifetime**' opportunity to use crypto to completely change your financial situation and start '**living your dream**.'

**It only requires you to do 2 things...**

- 1. 'Kick-out' procrastination**
- 2. Take action**

**I did both back in 2017 with Bitcoin.** I now look to help millions of people around the world do the same (eliminating poverty, [Circular Economy](#)) while also making a massive effort to help our planet (Global Warming-Climate Crisis) and avert the '6th mass extinction event' from being completed (**next 30-40years!**).

With MLGM you can become an Investor, or join our Affiliate Partner program, become a Customer, or join and just be a good friend. Whatever you decide we are here to help you achieve your goals.

MLGM offers flexible plans and packages, plans for larger cash flows, plans with options of accumulating more assets (Bitcoin, Gold)...and we're great to work with!

So when people ask "**what are you doing these days**" you can simply reply...

***"I'm helping promote sustainability and multiply my capital at the same time".***

***"I'm able to make a profit by simply exchanging my paper money for MLGM's Sustainable crypto tokens, into BITCOIN, or GOLD, without a bank or a broker."***

***My name is Ronnie Tutt,***

***Founder of MLGM-CEECO here in London, England.***

***Director of Finance. Sustainability Consultant. Sustainable Energy Finance - Climate Adaption Finance - Climate Sustainable Finance - Academy Climate Fellowship - Diploma Green Finance -***

I want to thank you for your time today. I encourage you to join (or get back to the person who sent you this information). They can then help you set up your FREE account today.

***...Have yourself an incredible awesome day and we'll speak soon!***
