OVERCOMING THE 'NEW' APARTHEID

...THE POVERTY TRAP

THE ECOBIOTOS™ NETWORK together with GREENBTC (GBTC) ERC20 crypto token is leading the fight against the many 'NEW' forms of 'APARTHEID'.
These include: Climate + Energy + Food + Health + Social + Financial.

2025...the problem

Corporate world still concentrating solely on profits for shareholders (greed). Rapid rise in prices for all living essentials. Rocketing Inflation. Lower wages. Artificial Intelligence replacing 'people'. 'Eat or Heat' being a daily decision. Shortage of homes. Increasingly unaffordable rental and maintenance fees ...the list goes, and on, and on.

Many lifestyles are now subjected to basic survival, not prosperity and goodwill.

Corporations continue putting **\$trillions** into new **nuclear power** plants so that they can rapidly expand the **AI industry** (data centres require huge amounts of energy). Deep ocean floor mining for metals (lithium). They want to go to Mars (more metals & minerals)...continued increase in throwaway plastic products.

What they should be doing is protecting the human race and all species that inhabit this amazing planet. Instead, they are now going ahead at '**warp speed**' to complete the scientifically predicted '**6th Mass Extinction Event**'.

So the question remains...

"Is saving humanity, animal kingdoms, species & habitats, worth more than just profits?"

...But Hold on a Moment!!!

...there **is** a
green planet '**first**'
alternative

...and here it is!

The **ECOBIOTOS™** NETWORK
